### About the Opportunity:

This opportunity seeks to identify a suitable quality assurance company that can carry out testing for LOCOG's mobile applications. LOCOG is seeking an agency, agencies or partner to test two mobile applications for the London 2012 Olympic and Paralympic Games.

Description

Mobile development for the London 2012 Olympic and Paralympic Games does not have a rich history, making this a key area for London 2012 to differentiate itself from previous Games, to leave a significant legacy and provide an enhanced experience for both spectators and the general public.

Our Games-time mobile application offering will comprise:

1. A Games-time Experience mobile application - Target release May 2012.
2. A Games-time Results mobile application - Target release June 2012.

LOCOG requires bidders to complete an NDA and comply with our standard terms of business during the next stage of the procurement process. We have attached our standard terms and our standard

NDA's for your reference. If you are invited to the next round, you will be required to complete and return these documents before we can issue you the bid documentation. DO NOT return these documents unless you have been notified that you have successfully been selected for the bidding stage.

LOCOG intend to shortlist suppliers at this stage based on a combined evaluation of the quantitative weighted scores attached to the short questions and a qualitative score attached to the narrative supplier statement.

**About the buyer's selection process:**

Responses to these CompeteFor questions will be evaluated and a shortlist of potential suppliers will be prepared. Successful applicants will be those which, in LOCOG's sole opinion, are most capable of fulfilling LOCOG's requirements as set out in this opportunity. A number of suppliers will be shortlisted as a result of responses to this CompeteFor and will be invited to provide a ratecard for their services.

Successful shortlisted suppliers will be e-mailed with details of next steps after the opportunity has closed on CompeteFor. In addition to responding to these questions on CompeteFor, applicants should be prepared to provide evidence to their responses, in the event of being shortlisted.

Bidders should note that LOCOG may manage the next phase of the procurement process online using our eTendering system.

LOCOG operates a fair and transparent procurement process. Further information on that values that underpin LOCOG procurement can be found in our Diversity and Inclusion Business Charter, available here on the London 2012 website:  
<http://www.london2012.com/businesscharter>

LOCOG's view of value for money is different to that of some other companies. In support of our vision for London 2012 (as described in the 'About the buyer' section below), we must consider a broad range of criteria when assessing proposals from bidders. As such, LOCOG defines value for money on the basis of a range of criteria, namely:

- Quality, delivery and disposal
- Commercial
- Sustainability
- Diversity and inclusion
- Legal, financial, health and safety

For further information about LOCOG and our procurement process, please read the LOCOG Invitation to Tender (ITT) Part 1 which is available on the London 2012 website:
